4. Proceedings:

(1) Interim Report on the Development of FY2018 R&D Plan

NRRC presented an interim report on the development of FY2018 R&D plan.

(Remarks from members ◆Industry members, ◇CRIEPI members)

◆Kyushu EPCO submitted its first safety improvement report of Sendai unit 1 to NRA. While NRA and the industry are going to start the discussion, we also expect good inputs from NRRC.

◆As to the evaluation of seismic ground motion with unspecified source, it seems necessary to study it with a probabilistic approach and think about uncertainty of survey data in terms of risk.

(2) Status of NRRC Activities

NRRC presented an interim report on the development of RIDM promotion team's activity plan in FY2018.
